

Application No.

DC/1817/19

**IMPORTANT**

This permission does not purport to convey any approval or consent required under Any written law other than Part IV of the Town and Country Planning Ordinance 1970.

**TOWN AND COUNTRY PLANNING ORDINANCE 1970  
TOWN AND COUNTRY PLANNING GENERAL DEVELOPMENT ORDER 1971  
NOTICE OF CONDITIONAL PERMISSION FOR DEVELOPMENT**

To Ms. Virginie Goblet

Of C/o. Jonathan Revera Chion, La Caz Madiba, Pointe Conan, Mahe

The Town and Country Planning Authority **HEREBY GRANT** permission for the following development proposal in your application No. DC/1817/19

dated the 11th day of November 2019

of the land situated at Danzilles, Bel Ombre, Parcel J1819, Area=460m<sup>2</sup>, {Villa, Pool & Access Drive}

in accordance with the accompanying plan (s) **SUBJECT** to the following condition (s):-

1. The development hereby permitted shall begin not later than the expiration of three years beginning with the date hereof.
2. The development hereby permitted shall be carried out and completed in every respect in accordance with the detailed plans and particulars.

**Subject to the following conditions:**

- Standard Conditions {attached}
- Environmental Authorisation with conditions {attached}
- PUC (Electricity) comments {attached}
- Developer to make provisions for rain water harvesting.
- Plumbing system should conform to PUC Water Regulation.
- Developer to make provisions for adequate water storage of at least 1.0m<sup>3</sup>.
- The developer should make a contribution towards connection of PUC Water Services.
- The developer should apply for treated water supply connection during the commencement of the proposed development.
- Developer should liaise with the Chief Fire Officer's Office for fire precautionary advice.
- For aesthetic reason, no air-condition units shall be installed on building facades visible from all roads/accesses.
- All boundary beacons must be made visible prior to project implementation and must remain visible throughout construction and submission of commencement notices to the Authority.
- Structural design to be submitted for **approval 28 days** prior to commencement of work with a copy of this approved certificate attached.
- Any earth cutting (earth works) is subject to a separate application to the planning Authority.
- A certified proof that termite treatment has been undertaken should be submitted to Development Control by the Contractor/developer prior to enclosing the foundation with ground floor slab.

**Note: Commencement Notice, Declaration form & other notices (forms attached) and copy of this PF4 Certificate must be hand delivered to the Planning Counter 48hrs in advance of required inspection. Commencement Notices should be endorsed by the Project Engineer.**

for the following reasons:

1. To avoid the accumulation of unimplemented planning permission thereby assuring orderly and phased development and taking into account changing policies.
2. To ensure satisfactory development.

Dated this 18th day of February 2020

For: Secretary, Town & Country Planning Authority

(Your attention is drawn to the Notes overleaf)

**STANDARD CONDITIONS - VILLA, POOL & ACCESS DRIVE AT DANZILLES,  
BEL OMBRE, PARCEL J1819 - DC/1817/19**

- 1). **LANDSCAPING**  
A scheme for the landscaping and planting of trees to be submitted and approved prior to commencement of the works which are the subject of this application.
- 2). **COLOUR SCHEME**  
A colour scheme for all the external surfaces to be submitted to the Planning Authority for approval prior to commencement of the Building Operations
- 3). **SAND & GRAVEL**  
The attention of the developer is drawn to the Breadfruit and Other Trees Act and the Sand and Gravel whereby no felling of trees and no removal of Sand or Gravel should be carried out without a permit from the Department of Environment and the Controller of Sand and Gravel respectively. Only those trees essential to building should be cut.
- 4). **GROUND/STORM WATER**  
The arrangement for the disposal of ground/storm water arising from the building and uses hereby permitted shall be agreed with the Control Unit Prior to commencement and provided to the latter's satisfaction.
- 5). **SULLAGE**  
If waste water from the bathrooms & kitchen is to be directed to a common soak-away then this sullage is to be directed into a third chamber of the septic tank. If not then it has to be directed into a separate soak-away after passing through a grease trap.
- 6). **ROOF**  
Roof should be green or grey colour base.  
  
Provide guttering to roof, which should be directed to rain water down pipes. One rainwater down pipe should discharge into a water storage tank with a suitable cover.  
  
Structural design of roof and construction to be checked on site and approved/amended as necessary.
- 7). **WATER STORAGE**  
The developer to provide adequate water storage facilities.
- 8). **SOAK-AWAY**  
Field drains/Soak-away to be minimum 5 meters from any boundary or building and a minimum of 15 meters from any watercourse or marsh where applicable. Manholes to be located such that incoming drains enter on an easy bend in the direction of flow.
- 9). **GLAZING**  
All glazing should comply strictly to BS952 Part 1:1995, BS 6262:1982 and BS 6206 class B or C as appropriate.
- 10). **ALUMINIUM FRAMES**  
All aluminium frames to openings should comply with BS 4873: 1986 and BS 5286: 1978 as applicable.
- 11). **ELECTRICITY LINES**  
Undertaking any building construction work within three metres of the electricity lines can be extremely hazardous and will be in violation of Public Utilities Corporation Act.
- 12). **TERMITES**  
"In every building the ground within the perimeter of the external walls and for a distance of 1.52 metres outside those walls shall be so sterilised as to prevent the passage of termites from the ground to any part of the building that would be harmfully affected by such termites, and all structural timber used in the construction of every building shall be sufficiently impregnated with an approved chemical for protection against termites except where termite-resistant timber is used. The contractor/developer should provide certificated proof to the DCO that this has been done prior to commencement of development.

PUCE

DC/1817/2019

RE: REQUEST FOR APPRAISAL - PLANNING APPLICATION

TO: PUBLIC UTILITY COOPERATION ELECTRICITY

DEVELOPMENT PROPOSAL: (1) Subdivision of land ( plots)   
(2) As per Section A(5) of attached PF1

PROPOSAL PROPOSED VILLA G+1+ POOL + ACCESS DRIVE J1819 DANZILLE, BELOMBRE

LOCATION Bel-Ombre

FOR: Virginie, Leilak, Immingard GOBLET

DC/1817/19 - Proposed Villa G+1, Pool, Access Drive for Virginie Goblet at Bel Ombre

A contribution will be required for the reinforcement of the distribution network in this area to cater for the provision of electricity supply to the proposed development.

The electrical load requirements should be submitted to PUC(E)

The electrical installation should be to BS7671.

The electricity supply to this development will be provided by means of an underground service.

The developer should ensure that there is a minimum of 2m clearance between power and water outlets to reduce electrical shock risks

The developer should apply for temporary electricity supply (for construction purposes) if required; the load details of the electrical equipment to be used should be submitted with the application (if the load exceeds 5 kW).

A contribution would be required for the provision of any temporary supply provided.

The developer should apply for electricity supply at the time of commencement of work for our planning purposes, noting that a contribution will be required towards provision of the electricity supply to the installation.
